## PROFILE

**Dr John Armstrong Bananuka**

Dr Bananuka is a professionally qualified agriculturist (Plant Physiologist/Agronomist) with fifteen (15) years experience in research, teaching and agricultural programme/project coordination and management.

Dr Bananuka has been involved in the implementation of “The Eastern Africa Programme and Research Network for Biotechnology, Biosafety and Biotechnology Policy Development (BIO-EARN)” since April 2002. He has worked as a researcher both at Makerere University and National Agricultural Research Organization for 12 years before joining the BIO-EARN as an Assistant Programme Coordinator. His research interest focuses on technology development and dissemination. He has published in the fields of agronomy/plant physiology and biotechnology policy. Dr Bananuka holds a PhD, an MSc and a BSc in Agriculture from Makerere University.
