
PROFILE

Gospel Omanyia

Gospel Omanyia is the Seed Systems Manager at the African Agricultural Technology Foundation (AATF). He is an accomplished plants breeder and geneticist with a PhD in plant genetics and breeding from the University of Hohenheim in Germany, a Master of Science in plant breeding and a Bachelor of Science in agriculture from the University of Nairobi, Kenya. Gospel worked for the International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), Sahelian Center in Niamey, Niger, as a Special Project Scientist, responsible for Pearl millet improvement for West and Central Africa, where he facilitated the development of farmer-managed seed production and distribution systems. At AATF Gospel oversees formulation and implementation of technology deployment policies and strategies, including stewardship, products demonstration and delivery to target users in Africa.

Gospel is a biographee in the Marquis Who's Who in Science and Engineering, 2008–2009.
